Dates and logistics—automatica 2018

Important dates and logistics information at a glance: When space allocation begins, setup and dismantling times and useful tips regarding logistics for automatica 2018.

automatica 2018: Dates and deadlines

May 2017: Allocation of stand space begins

We begin assigning stand space for automatica 2018 on May 15, 2017. Therefore, we recommend making sure that we have received your application by then. That way we can try to take your stand requests into account in the first round of space allocation.

Autumn 2017: Proposal for stand space

After we receive your application, we will check possible locations and will send you a proposal for stand space.

From December 2017: Admission

If you agree with your proposal for stand space, please send us your confirmation on time. If you would like to request a change, naturally we will do our best to offer you an alternative. As a rule, if you confirm your proposal for stand space before the deadline, you will then be admitted to the fair.

January 2018: Marketing services brochure and access to Exhibitor Shop

From January 2018, you will receive the digital marketing services brochure and your access to the automatica Exhibitor Shop by e-mail. You can use the order system to go online and directly order all the services and products that you need to make your exhibit a success.

Other dates and deadlines will be posted here on a regular basis.
