

Four shows, one location, one ticket!

automatica shows you innovations in robotics, assembly and handling technology, and machine vision. Profit from additional valuable synergy: IT2Industry, Intersolar Europe and ees Europe take place at the same time as automatica. Your ticket allows you to attend all four exhibitions.

The central challenges facing the industry are the increased networking of companies, people, machines, processes and data and the energy-efficient use of the latest technologies.

Strong collaboration for topics of the future

Our partner exhibitions expand the range of exhibits at automatica by focusing on topics that are relevant to the industry. IT2Industry focuses on and promotes Industry 4.0. Everything at Intersolar Europe revolves around solar technology. ees Europe is Europe's largest trade fair for batteries and energy storage solutions.

Your ticket to automatica also gives you access to all three of these partner exhibitions.

Network with neighboring branches of industry

The Messe München trade-fair center is the perfect place to meet international key players and decision-makers that go far beyond your own branch of industry. Check out related fields and establish new business contacts in related areas.

IT2Industry

IT2Industry is the Trade Fair and Open Conference for Intelligent, Digitally Networked Working Environments. It sheds light on the pathway to the smart factory. Its range of topics covers the entire production process: automation, industrial software, data networks, infrastructure and production logistics, IT security, big data and cloud computing, IT and machine-to-machine communication.

-
- Trade Fair and Open Conference for Intelligent, Digitally Networked Working Environments June 19–22, 2018

Intersolar Europe

Connecting solar business: With events on four continents, Intersolar Europe is now the world's leading exhibition for the solar industry. Its objective is to increase the share of the energy supply that is generated by solar. It focuses on the photovoltaic sector, energy-storage systems, regenerative heat and products and services for smart renewable energy.

-
- The World's Leading Exhibition for the Solar Industry and its Partners June 20–22, 2018

ees Europe

ees Europe is Europe's Largest Exhibition for Batteries and Energy Storage Systems. It is the perfect place to meet suppliers, manufacturers, distributors and users of stationary and mobile electrical energy storage solutions.

-
- Europe's Largest Exhibition for Batteries and Energy Storage Systems May 31–June 2, 2017

As you plan your schedule:

Intersolar Europe and ees Europe open on the second day of automatica.
