

Matchmaking: Perfect connections for your trade-fair success

Matchmaking is our interactive planning tool that can help you prepare for automatica more effectively. Matchmaking brings together what belongs together before the fair even begins—exhibitors and visitors, manufacturers and customers, prospects and experts.

Optimize your trade-fair success! Plan what you want to talk about with whom before the fair begins. Matchmaking is an effective way to find perfect potential partners. It tells visitors which exhibitors sell the products and services that they are looking for. It also allows exhibitors to prepare their portfolios to address specific visitors in different target groups and in various areas of expertise.

Matchmaking links you to suitable exhibitors

Participating exhibitors post detailed information about their product/service portfolios. Interested visitors enter exactly what they are looking for and what their function is at their company in their profile.

Our matchmaking tool filters the information and recommends suitable exhibitors to you. You can make appointments to suit your schedule online using the available contact form. This allows you to make optimum use of your time at automatica.

Access links for visitors preparing for automatic 2018 will be available here in **March 2018**.

Matchmaking advantage for visitors:

- ✓ Find suitable potential partners before the fair even begins.
- ✓ Make specific appointments with interested exhibitors.
- ✓ Compare the concrete offers of different manufacturers.
- ✓ Make your visit to the fair even more efficient and successful.
