

Exhibitors and visitors in numbers

Every two years the industry's key players and decision-makers meet at the most important innovation platform for automated production processes. In Munich we greet participants from all branches of industry who want to invest in future technologies effectively. automatica also plays a key role internationally: More than one-third of its visitors come from abroad.

Exhibitors are enthusiastic about the quality of the visitors at our automation trade fair. This first-rate audience of industry professionals comes with concrete plans to invest: 84 percent of trade visitors are decision-makers, and 20 percent of them strongly influence the decision-making process.

43 percent of the visitors are production employees from the areas of production, design and planning.
