

Our partner exhibition: The smarter E Europe

automatica shows you innovations in robotics, assembly and handling technology, and machine vision. Profit from additional valuable synergies: Intersolar Europe, ees Europe, EM-Power and Power2Drive will take place at the same time as automatica. These four trade fairs empower new energy solutions—under the label **The smarter E Europe**.

Your ticket allows you to attend all five exhibitions.

The central challenges facing the industry are the increased networking of companies, people, machines, processes and data and the energy-efficient use of the latest technologies.

Strong collaboration for topics of the future

Our partner exhibitions expand the range of exhibits at automatica by focusing on topics that are relevant to the industry.

The smarter E Europe is the innovation hub for empowering new energy solutions.

Your ticket to automatica also gives you access to The smarter E.

Network with neighboring branches of industry

The Messe München trade-fair center is the perfect place to meet international key players and decision-makers that go far beyond your own branch of industry. Check out related fields and establish new business contacts in related areas.

Intersolar Europe

Intersolar Europe is the world's leading exhibition for the solar industry and its partners and takes place annually at the Messe München exhibition center in Munich, Germany. The event's exhibition and conference both focus on the areas of photovoltaics, solar thermal technologies, solar plants, as well as grid infrastructure and solutions for the integration of renewable energy. Since being founded 26 years ago, Intersolar has become the most important industry platform for manufacturers, suppliers, distributors, service providers and partners of the solar industry.

-
- The World's Leading Exhibition for the Solar Industry and its Partners, June 20–22, 2018

ees Europe

ees Europe is Europe's Largest Exhibition for Batteries and Energy Storage Systems. It is the perfect place to meet suppliers, manufacturers, distributors and users of stationary and mobile electrical energy storage solutions.

-
- Europe's Largest Exhibition for Batteries and Energy Storage Systems, May 31–June 2, 2017

EM-Power

EM-Power is the premier exhibition for intelligent energy use in industry and buildings. EM-Power is the first exhibition in Germany where professional energy customers – with their demand for efficient energy technologies, intelligent control systems and energy savings – and the key concepts underpinning the energy transition in industry and the building sector take center stage.

- The premier exhibition for intelligent energy use in industry and buildings, June 20–22, 2018

Power2Drive Europe

Power2Drive Europe is a driving force in the EV industry and charging technology. The exhibition Power2Drive showcases charging solutions and technologies for electric vehicles and reflects the interaction between electric vehicles and a sustainable and environmentally friendly energy supply. It is an industry hotspot for suppliers, manufacturers, distributors and start-ups in the emerging field of electric mobility and transportation.
