

## IT2Industry connects physical and digital components

Digitization in manufacturing and production is the key factor for competitiveness and sustainable success in industry.

In the IT2Industry exhibition area at automatica 2020 ICT companies are clearly in the spotlight. In order to provide industry with ground-breaking solutions, automatica covers the entire spectrum from robotics and automation, extending on to information technology and finally to IT security. Here you can set the course for the future of your company business.

Automatica offers you attractive variety and reasonable prices. You can decide whether to take a booth of your own or book one of our attractive all-in packages (Basic package or Premium package. In any case the exchange with like-minded people is guaranteed.

### Book your stand space or one of the two complete packages in the IT2Industry exhibition area now
