

automatica 2018 supporting program: exchange on an equal footing

“Optimize your Production”—the (supporting) program of automatica 2018 is reflected in the slogan. Varied topics and formats address trends and innovations, and provide an outlook as well as stimulus for discussion. The supporting program is a great opportunity for visitors to meet at eye level and expand their network.

Forums

The forums at automatica are all about subjects of interest to the industry, and orientational knowledge.

- [automatica Forum](#)
- [IT2Industry Forum](#)
- [Investor's Day](#)

Congresses

The automatica congresses go far beyond a mere exchange of information. They are a source of inspiration and set new trends.

- Automobil Produktion Congress
- ISR Robotics Conference
- OPC Day Europe

Industrie 4.0 Demonstrators

Platforms and ecosystems are the new business models experiencing highly dynamic development in the wake of the Internet of Things. Where are the potentials?

- OPC UA Demonstrators
- Industrial Application 4.0

Industry 4.0—Highlights

What will be the next thing in automation and robotics? Various showcases provide insights into a fascinating world of opportunities.

- Platform Economy
- People in the Smart Factory

Live Demonstrations

The automatica Demo Park showcases the current state of development and underlines the relevance of maintenance in automation.

- Service Robotics Demopark
- Smart Maintenance Pavilion

Workshop of Ideas

Our Workshop of Ideas organizes development competitions, supports young talent, and hosts think tanks.

→ automatica Makeathon

→ Start-up Arena

→ Recrutainment
