

Workshop of ideas of automatica 2018

Support for young talents

With the "Integration Islands" project, automatica is increasingly involved in the promotion of young talent.

→ Young talents

automatica Makeathon

The Makeathon is targeted at young professionals and students from the fields of software engineering, mechatronics and mechanical engineering.

→ Makeathon

Start-up Arena

The automatica Start-up Arena offers newcomers a unique opportunity to find partners for their innovative projects.

→ [Start-up Arena](#)

Recruitment

Young talents are introduced to the requirements of robotics and automation through team spirit and creativity.
